

Washing machine Type 6090

cleans hobbcocks and barrels on the in- and outside by means of brushes and simultaneous rinsing with solvent. The three brush rollers with their slightly different rotating speeds ensure a particularly effective cleaning of all surfaces. Conductive brushes with type examination according to ATEX no nitrogen inerting required.

Dimension (Standard size):

Drums:	$\leq 200\text{ l}$
Drum / Hobcock:	$\varnothing 350\text{-}600\text{ mm}$
High max:	900 mm
